

On Sunday, May 22, 2011 Bethany Christian Church began its **Going Green** program. The first phase of this program involves recycling paper. Recycling bins are placed in various locations inside Bethany.

Members are encouraged to place any kind of paper e.g. - newspapers, phone books, magazines, bulletins, programs etc. in these bins. The Fellowship Hall stage should be used as a temporary location for any overflow until further notice.

Please remember to bring any paper that you may be throwing away. Future program phases will include reducing our overall paper use and recycling cans and plastic. For more information, please call or stop into the church office after worship service on Sundays.
